## THE PAST YEAR

January 1<sup>st</sup> 1999 we began training at The Master's Mission in North Carolina, an intensive year of Bible and technical classes for both of us.

Through the Bible program we learned the scriptures are relevant for our lives today, and that we can know and understand them ourselves.

In the technical program we each studied a variety of subjects. Adam had a chance to hone his mechanical skills and learn construction, earth moving, timber harvesting, drafting, and community development. The classes were augmented by hands-on experience in the field. Lyndy's technical classes concentrated on skills needed to adequately and confidently run a home in a remote area. Experience living without electricity, using a kerosene refrigerator, and wringer washer. Shopping for 3 months of groceries, small animal husbandry and butchering, gardening, canning, record keeping, correspondence, emergency car repair and hospitality.

We completed the program with high grades and graduated December 18<sup>th</sup>. The Master's Mission also sends missionaries to the field and during our year we applied, and were accepted, as TMM missionaries for service to Alaska.

## IMMEDIATE PLANS

Our first order of business is to pack up our home in North Carolina and make travel plans for deputation. We desire to quickly return to Alaska but need an increase in our monthly support and are on the watch for a suitable airplane before we return. We'd enjoy seeing as many of you as possible in the coming months as we travel. We anticipate driving across the Southern U.S. in February and March on our way to spend time in Vaughn, Washington. In our travels back to the Southeast we'll drive across the Northern U.S. and down the East Coast. The goal of this traveling is to visit with you who have been a part of our ministry in the past, reacquaint with friends and share in detail what our future in Alaska will be.

## FUTURE PLANS

We're grateful for our previous time in Alaska and the opportunity to serve with KIAM Radio. God used that time to bring us together and solidify in us, His desire that we serve in Alaska. While attending The Master's Mission we saw that our goals and TMM's were similar; to establish Christian families. We are planning to work in cooperation with KIAM, establishing ourselves in the same town and then working within the area that the radio reaches. Using aviation to contact and visit people face-to-face that already know our voices from listening to the radio.

## LAST THOUGHTS

We'll be making phone calls this next month as our plans to travel come together and we know when we'll be in your area. We're looking forward to seeing you and sharing the details of our plans, if you'd like to get in touch with us:

JANUARY—The Master's Mission

FEBRUARY—Georgia

#770.787.0341

Our mailing address and email will remain the same, we're still online when we travel so feel free to drop us a note.

## PRAISES AND PRAYERS

Praise-

- Our year at TMM; great classes and friends
- Spending the holidays with family in Georgia
- Exciting times ahead

Prayer-

- Safe travels as we hit the road again
- Provision for the future: on the road & in Alaska
- Airplane!

Together Serving Him,  
Adam and Lyndy White
